

Bell Boy

17 ft. Fibreglass TRAILER SAILER

From the makers of Bell Boy Boats comes this all new 17 ft. Trailer Sailer, designed to provide a comfortable and safe family sailing craft.

It has a moderately high aspect ratio sail plan, rigged to make sailing by two people a simple operation. The craft is comfortable and roomy with a large cabin fitted out with bunks leaving adequate room for toilet and sink.

A non-slip surface is provided on the deck, cock-pit floor, and cabin top areas.

Ample stowage room is provided. The moulded motor well will take up to 20 H.P. outboard power. Rigging features alloy spars with stainless steel fittings and terylene sheets. Handrails fitted to the cabin top plus interior cock-pit trim, are of teak.

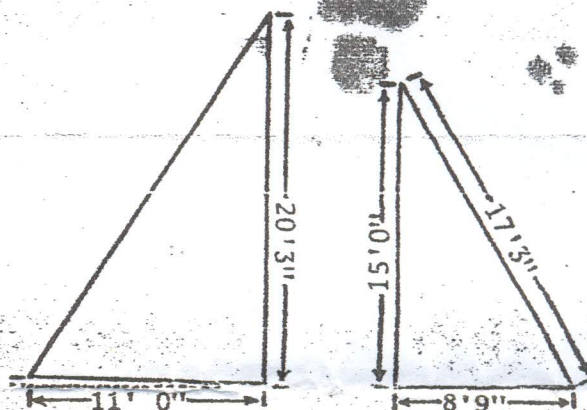

The trailer sailer has a fine bow with soft entry, and the 7'4" beam retains a good planing area. Easily operated steel centre-board provides adequate ballast, and good lateral resistance for windward performance.

It will float in very shallow water making it ideal for launching from local beaches. Will compare favourably with other popular trailer sailers.

SPECIFICATIONS

Length.....17' 0"
