

CASTLE 650

YACHT WORKS 41 GOVERNOR RD MORDIALLOC 3195 PH95806328

The Castle 650 will score top points with family buyers for its accommodation. The Cabin has 1.5 m. head room and full standing head-room under the poptop.

The Centrecase forms an extremely strong structural member and mast support, and does not intrude into the accommodation as a whole.

The accommodation plan consists of "V" berths forward which converts into a large double berth. On the port side a full length settee berth, on the starboard side - another full length berth. Between the centre-case and the starboard side is a built in shelf and storage locker with room for a sink and 2 burner stove.

Under deck side lockers form very comfortable

The Castle 650 is fast, dry and stable.

The 766 kg. displacement is quite low, and with a computer designed drop keel and internal ballast. The underwater shape is a modern symmetrical design with low drag characteristics, resulting in exceptional handling in all conditions.

With a large clear cockpit and ample side decks, the 650 is a pleasure to sail.

back rests on both sides.

A folding table can be attached to the rear of the centrecase.

A 4 hp Mariner gives good performance under power.

The rig is a simple 7/8 consisting of a tapered mast with forestay cap shrouds, single angled spreaders, lowers and adjustable back stay.

All sail controls lead back to the cockpit for easy access. The wide side decks provide easy access to all parts of the boat for sail handlines etc.

The cabin top and all deck surfaces are non-skid.

In the foredeck there is a recessed anchor locker. A hinged hatch is located forward of the mast for access and ventilation. The main companionway is provided with a poptop and sliding hatch. A cockpit storage locker is located in the starboard bench seat.

A bridge deck prevents water from entering the cabin from the cockpit. The cockpit drains at all angles of heel.

Side benches run to the transom. The rudder and motor are easily accessible from here.

A dagger or swing rudder is available.
