

# SERENA TY22

Designed for Australian conditions and built from Australian materials, the Serena TY22 could almost be handled by one person alone (from trailer to rigging, sailing and back on the trailer) ... if it wasn't such an ideal family yacht.

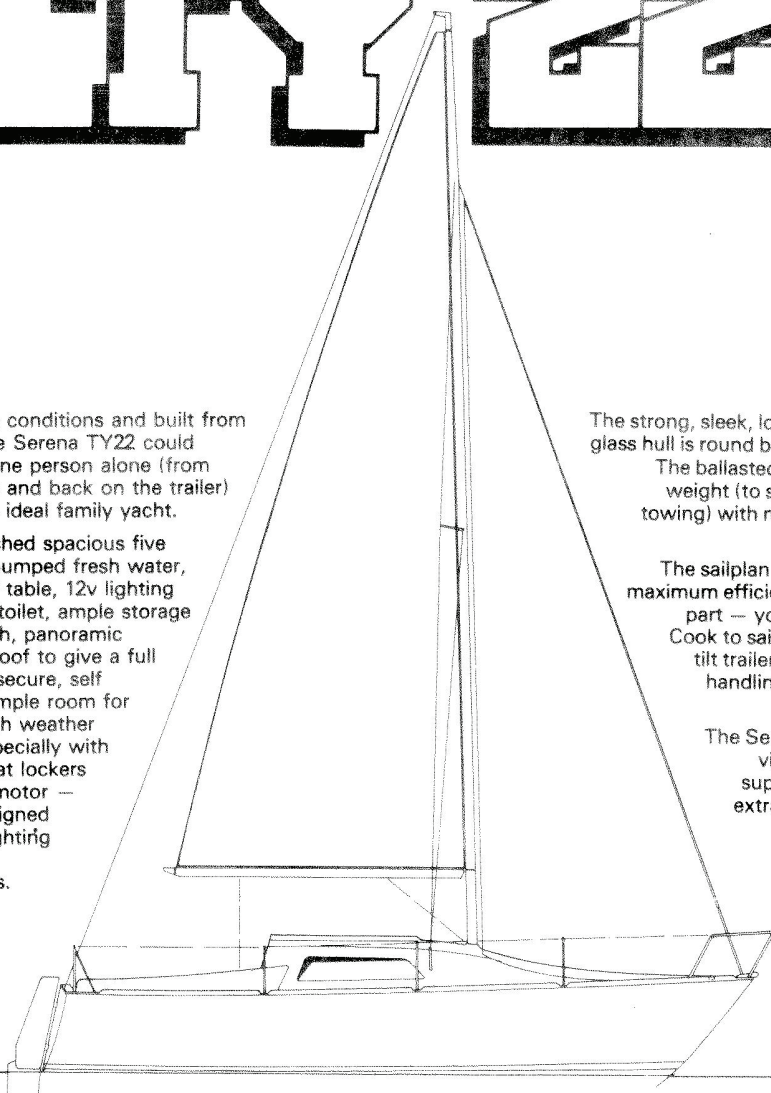

From the brightly furnished spacious five berth cabin with sink, pumped fresh water, icebox, stove, drop leaf table, 12v lighting system, partitioned off toilet, ample storage space, transparent hatch, panoramic windows and pop-top roof to give a full 6' headroom — to the secure, self draining cockpit with ample room for six, a full stern for rough weather comfort and safety (especially with children), and under seat lockers for sails and outboard motor — the Serena TY22 is designed for cruising and overnighting with safety and family comfort as top priorities.

The strong, sleek, low maintenance, reinforced fibre glass hull is round bottomed for smoothness of ride.

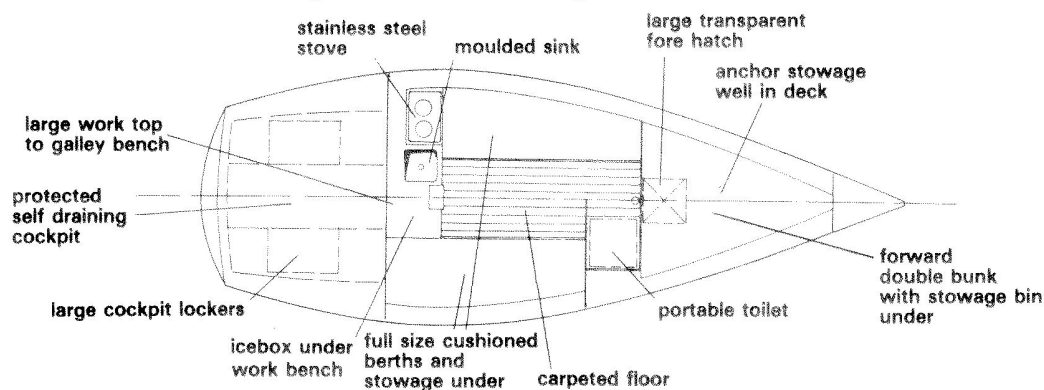

The ballasted swing keel combines minimum weight (to save extra load on your car when towing) with maximum stability, and the yacht is fully self righting.

The sailplan and rigging are designed to give maximum efficiency with minimum fuss on your part — you don't need the skill of Captain Cook to sail the Serena TY22. Similarly the tilt trailer has been designed with ease of handling in mind and has been properly matched to the yacht.

The Serena TY22 comes complete with virtually all normal optional extras supplied as standard. And for a few extra dollars, comprehensive Serena TY22 sailing classes can be attended.

The 22' Trailable Yacht that lets you enjoy the kind of sailing you've always dreamt of.

## COMPARE: SERENA TY22

and the others

The following are all included in the price of the Fallshaw made SERENA 22. Check to see if they are in other boats.

### JUST ADD PEOPLE AND WATER

<b>HULL</b>	Fibreglass for low maintenance. Self-righting.
<b>DECK</b>	* Life lines & pulpit in stainless steel. All cleats and brackets bolted through to reinforcing pad on inside. Plenty of non-slip surfaces. Wide side decks so you can easily walk forward. Sandwich reinforced for strength. Toe rails moulded-in (no leaks & safer). Reinforced stanchion bases. Mechanically fastened to hull (and bonded). Vents of low profile splash proof type.
<b>INTERIOR</b>	Level floor with no obstructions. Mouldings designed to give added strength to hull. 2 mouldings bonded into place. Big, tinted windows (lots of light without glare). Clear forward hatch (light into forepeak). 2 vents for good ventilation. Attractive colour scheme. Timber trim (marine grade timber, not cheap veneer). 3 interior lights (one over galley, one in toilet, one general). Carpet supplied and fitted. Cushions supplied. Water resistant materials used.
<b>BULKHEADS</b>	18 mm marine grade ply glassed into place. Foam stringer (spacer) to avoid stressing hull. Protective finished and varnished.
<b>BALLAST</b>	* Bonded into place (so it cannot move).
<b>SWING KEEL</b>	Case does not obstruct cabin floor. Raising tackle leads to cockpit. * Keel hold down fitted.
<b>POP TOP</b>	For greater comfort on pleasant days. Foam sealing. When up, can be level or tilted.
<b>HATCH in pop top</b>	To make it easier to get into cabin.
<b>SIDE HATCHES</b>	Companion way can open wider for entertaining.
<b>RUDDER</b>	Fibreglass for low maintenance. Strong rudder mounting. Rudder can swing up or be held up or held down.
<b>TILLER</b>	Laminated for beauty and strength.
<b>GALLEY</b>	Water tank and pump fitted. Sink and outlet fitted. * Outlet through hull fitted with seacock. Lots of bench space. * 2 burner methylated spirit stove for safety (Kero or gas not as safe). Ice box supplied and fitted.

2

<b>TOILET</b>	Portable toilet supplied and fitted. Located behind a bulkhead for privacy.	
<b>COCKPIT</b>	Large cockpit (6 people easily). Wide cockpit combing. Large 4" self draining drains so they do not block up.	
<b>MAST</b>	Simple to erect mast: Place mast into mast step, connect two side shackles, stand mast up, connect fore stay and tighten. Mast stowage brackets supplied. Halyards return through mast step.	
<b>BOW FITTING</b>	Stem head contains enclosed roller to keep anchor line at bow of boat and prevent damage to gunwales.	
<b>ANCHOR WELL</b>	Self draining. Hatch reinforced with sandwich construction.	
<b>HALYARDS</b>	All lead to cockpit for greater convenience	
<b>DECK GEAR</b>	Leading Australian brands so spares are readily available. High quality braided halyards and sheets (easy on hands)	
<b>SAFETY GEAR</b>	( * As recommended by the Yachting Council) * Anchor and line. * Steel fuel tank. * 5 life jackets. * Sheet cleats are quick release type. * Hatches can be attached with lines. * Fire extinguisher to latest regulation fitted. * Compass fitted. * Navigation lights fitted. * Torch supplied and fitted. * Transistor radio supplied and fitted. * First Aid Kit supplied and fitted. * Two red flares (never use unless you are in real emergency). * Two orange flares (to attract attention). (you need to buy your own charts, according to where you wish to sail).	
<b>SAILS</b>	Mainsail with reef points. Jib with self tacking gear. Spinnaker (fittings already in mast) <b>(\$240)</b> From top quality sailmaker (Hood Sails)	
<b>MOTOR</b>	Outboard Motor 8HP Mariner with Bracket	<b>\$ 750</b>
<b>TRAILER</b>	4 Wheel trailer	<b>\$ 1,300</b>
	<b>TOTAL VALUE</b>	<b>\$12,850</b>
	Sailing Course available (2 weekends)	<b>\$ 50</b>
