# A NEW GENERATION TRAILER YACHT

*with improved performance and handling!*

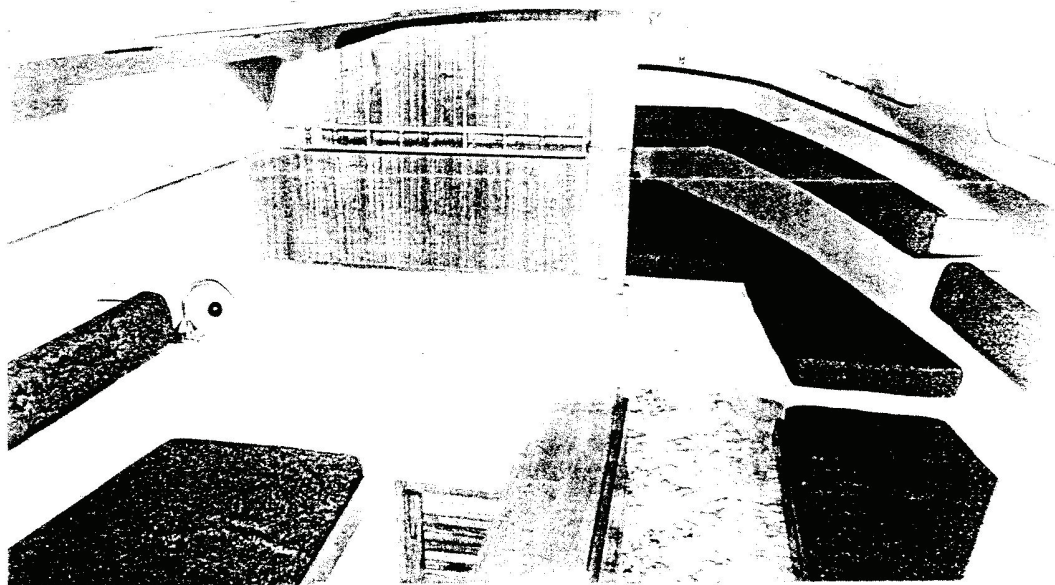

## THE CONCEPT:—

Never before has a 22 footer been produced with such attention to detail and family comfort. The design brief called for a boat with a maximum of interior living accommodation, for the cruising family, a large efficiently self-draining cockpit, a simple yet powerful  $\frac{3}{4}$  rig, a boat that could be towed easily by a six cylinder family car. And Yet:— Not detract in any way from the appearance or sailing characteristics of the yacht.

A pretty tall order you might say. Well we at Sabre Yachts believe that the New Sabre 22 MK II has achieved all these requirements with ease and much more besides.

## Consider these design features:—

1. An aerofoil shaped keel which swings up into the hull without intruding upon the accommodation, and imagine the advantages of having all the lead ballast in the leading edge of this fibre-glass keel. When the keel is down the ballast is really low giving great stability. When the keel is raised the ballast is still right in the bottom of the boat thereby providing a good self-righting moment no matter where the keel is.
2. An aerofoil shaped 'kick-up' rudder, balanced to give light but positive feel of the helm at all times.
3. A  $\frac{3}{4}$  rig on a light-weight tapered but immensely strong mast with a minimum of shrouds to make rigging the boat simplicity itself, it really is a one man rigging operation.
4. A large and substantial 'pop-top' with skylight to give full headroom through the main body of the boat whilst at anchor.
5. All halyards, reefing lines etc., lead back to the cockpit for easy sail handling.
6. Easy launch and retrieve by family, no need to call for assistance from bystanders.
7. Comfortable sleeping accommodation for 5 adults or family with 3 children.
8. 22 litre (20 gallon) water tank installed in fore'd berth.
9. Large self draining cockpit locker.

| Specification:-   | Imperial | Metric  | Weight on trailer | 3417 lbs    | 1550 kg     |
|-------------------|----------|---------|-------------------|-------------|-------------|
| Length-overall    | 21'9"    | 6.63    | Draught keel up   | 1'2"        | .36         |
| Length waterline  | 19'1"    | 5.8     | Draught keel down | 4'6"        | 1.37        |
| Beam overall      | 8'2"     | 2.45    | Height on trailer | 8'2"        | 2.5 m.      |
| Beam at waterline | 7'1"     | 2.16    | Main sail         | 148 sq. ft. | 13.8 sq. m. |
| Displacement      | 2315 lbs | 1050 kg | Jib               | 85 sq. ft.  | 7.9 sq. m.  |
| Ballast           | 750 lbs  | 341 kg  | Spinnaker         | 377 sq. ft. | 35 m        |
